## About Me

Highly motivated and detail-oriented BCA graduate seeking an entry-level position in software development where I can apply my skills in programming, problem-solving, and technology integration.

## Internship And Projects

Python programming intern at Internpe (1 month)

- Completed a one-month online internship as a Python Developer. Developed a game like Tic Tac Toe, showcasing my programming skills and creativity.
- Received guidance and materials from the team, enhancing my learning experience and project development

Cafe management website :

- Developed a user-friendly website utilizing VB.NET and Microsoft Server Studio to streamline the order booking process.

Fitness management app :

- Designed and developed a fitness management app using Kotlin, incorporating phone storage capabilities to help users calculate and track their BMI

## Volunteer experience

UBA Volunteer

- As a UBA volunteer, I participated in campaigns for water conservation, dengue awareness, and a cleaner earth. Demonstrating the power of collective action and community engagement.

Technical Project Exhibition Participant :

- I competed in Galaxia, an inter-departmental competition at Kristu Jayanti College, Bangalore, where I completed a project using PHP. This experience showcased my technical skills and ability to collaborate effectively.

UI/UX Designer workshop at Growth School :

- Designed 10+ user-friendly templates using Figma during an advanced UI/UX workshop. Enhanced team design output by 50% and optimized workflow through improved design practices.
