About Me

Dynamic and detail-oriented Sr. Frontend Developer with over 7 years of experience in building and customizing engaging, user-friendly websites and web applications. Skilled in HTML5, CSS3, and modern JavaScript frameworks like React and Angular, with a keen eye for aesthetics and usability. My comprehensive experience includes UI/UX design, graphic design, and video editing, enabling me to create holistic digital solutions that enhance user experience and drive engagement.

Professional Experience

Sr. Frontend Developer – Based in Ahmedabad

Throughout my career, I have taken on roles as a Sr. Designer and developer, progressively growing in responsibilities and technical expertise. My key achievements include:

- Leading the development of high-impact, responsive web applications for diverse industries.
- Implementing interactive features and dynamic designs using modern JavaScript frameworks.
- Collaborating with cross-functional teams to ensure the alignment of development goals with business objectives.

Graphic Designer – (Early Career)

Started as a graphic designer, honing my skills in design aesthetics and brand consistency. I then transitioned into web design and frontend development roles, where my design background provided a unique advantage in creating user-centric and visually appealing websites.

- Skilled in creating cohesive brand visuals that communicate brand values and enhance recognition.
- Experienced in designing a variety of materials, from digital graphics to print-ready assets, ensuring consistency across media.
- Proficient in typography and layout principles, crafting designs that are visually appealing and easy to navigate.
- Advanced proficiency in Adobe Creative Suite (Photoshop, Illustrator, InDesign) for producing high-quality graphics and illustrations.
