Analytics	<ul style="list-style-type: none">• DAX• Power BI• Advanced Excel
Documentation Tools	<ul style="list-style-type: none">• Microsoft Office• Microsoft Visio/DrawIO• JIRA• Confluence
Methodologies	Agile, Waterfall model, Scrum, Retrospective's
Versioning tools	GIT Hub, GIT Lab

Summary

- Experienced in system analysis, design, workflow architecture, development, testing and maintenance of web based applications.
- Worked as a developer on technologies such as DotNet, Ms Sql Server, Angular
- Strong working ability in agile environments
- Involved in all phases of Software Development Life Cycle (SDLC) such as Planning, Analysis, Design, Implementation, Testing and Maintenance
- Worked in an agile-based team environment. Followed the principles of the agile waterfall Scrum meetings, Daily SyncUps, Retrospective meetups for ongoing projects and Sprint delivery. Lead all aspects of Business Analysis, Development and Sprint Quality audits
- Exceedingly handled Conflict Management, Cost to serve CTS, Cost to operate CTO, Managed CCI Margins
- Worked closely with design team to ensure user-friendly designs for non-technical and technical users
- Expertise in the following UI design practices and concepts: user-centered design, UI heuristics and principles, technical writing, business and user workflow, logical information organization and navigation, prototyping and use case scenarios.
- Worked closely with the team to create POCs and demo's to win customer's confidence

Professional Experience

Technical Project Manager/DotNet Developer

June 2023 to Present

Sankey Solutions Pvt. Ltd. (Leading IT services startup specializing in innovative, end-to-end technology solutions and seamless project delivery across global markets)

Project Lead Responsibilities

- Independently handled SDLC, Requirement Gathering, Preparing Business Requirement Documentation (BRD)
- Actively participating in designing solutions around High Level Design, Low Level Design Documents
- Handled Scrum meetings, Daily SyncUps, Retrospective meetups for ongoing projects and Sprint delivery. Lead all aspects of Business Analysis, Development and Sprint Quality audits
- Applied Agile approach and ensured client satisfaction on project delivery led by Retrospective meetups
- Prepare Epics, User Stories, Backlogs and manage Confluence for uploading documentation
- Plan and execute UAT with the customer and manage GoLive within timeline across various environments
- Worked as a developer with client facing teams to develop solutions that meet Business requirements
- Standardize architecture, coding standards and use of technology and tools across teams for code reviews
- Handled POCs and demo it to technical and non-technical customers
- Worked on POC for BFSI to maintain banking/finance data using Java Core, JFrame, Hibernate, MySQL
- Expertise in cross-functional collaboration to ensure delivery completes on time with 99% bug free product

Team Lead and Business oriented responsibilities

- Efficiently handled team of 35 members (developers, QAs, tech explorers) ensured minimum quarterly attritions
- Involved as a developer and Release Managers to deliver business oriented solutions
- Handled Team Grooming sessions, Continuous Feedbacks with the team and helping to grow in career
- Exceedingly handled Conflict Management, Cost to serve CTS, Cost to operate CTO, Managed CCI Margins
- Involved in building business proposals, SOWs, MSAs
- Always maintained the motivation level of the team to help them achieve high performance

Technical Project Lead

June 2021 to July 2023

Accenture Solutions Pvt. Ltd.

Project Lead

- Understanding requirements, help team to align the requirements and drive SDLC
- Developed business roadmap to improve function and performance which resulted in restructuring team into UI, API and DB teams to set new industry standards around technology organizations
- Efficiently managed team of 10 team members with minimum attritions
- Provide guidance with technical expertise in design and development projects
- Followed Agile approach and ensure client satisfaction on project delivery. Lead Scrum meetings across projects
- Prepare Epic, User Stories, Backlogs and documentation management in confluence
- Handling daily standup meetings by start of day to review Sprint reviews

Business & Technology Delivery Senior Analyst

Jan 2018 to June 2021

Accenture Solutions Pvt. Ltd.

Project Lead Responsibilities

- Provide technical expertise in design and development projects
- Handling daily standup meetings by start of day to review Sprint reviews
- Complete projects Ensure timely completion of the projects
- Lead all aspects of Business analysis, development, Sprint Quality audits
- Ensured uninterrupted customer service along with ontime bug fixes reducing downtime

Application Architect & Technology Delivery Analyst

April 2014 to June 2018

Accenture Solutions Pvt. Ltd.

Team Lead Responsibilities

- Software development technologies using C#.Net console applications, Asp.Net WebAPI's and UI in Angular version 9 to 15

- Mentor junior developers and assist in hiring and other aspects of organizational development
- Maintaining performance metrics for team's yearly appraisals
- Actively involved in project implementation and provided support to team members
- Always available to support junior and senior developers in my team in their project completion and bug fixing
- Managed transitions in maintenance and support

RPA Automations Team Lead

February 2011 to March 2014

Accenture Solutions Pvt. Ltd.

Responsibilities

- Extensively used Ms Excel, Power Pivot, Ui Path, Automation Anywhere, Macros
- Managing project pipeline and ensured project implementation into the client projects
- Involved in End to End projects Requirement gathering, Project planning, Development tracking, UAT and Implementation
- Maintained system technical and support documentation. Also Participated in support rotation for technical production
- Leading automation team of 10 team members
- Gave Excel automation trainings to my team members
- Approx. 120 hours saved on a monthly basis by implementing automation tools

VBA Automations Senior Developer

June 2007 to January 2011

Zenta Pvt. Ltd.

Responsibilities

- Developed Excel based Macros to format data from one sheet to another based on selection using Excel Objects Model, VBA, Events combo boxes, OLEDB objects, power queries, advanced excel formulas
- Maintained and modified existing applications with VBA programs and macros
- Developed VBA programs to automatically update Excel workbooks, encompassing class and program modules and data queries enabling automatic updating excel workbooks
- Implemented high level coding technologies classes and modules to make the code reusable
- Maintained system technical and support documentation
- Mentored entry-level support staff in system operations

Skillset Summary

C#.Net

- 9 year's handson experience in development of REST API's, Windows Applications using ASP.NET, C#.Net, ADO.NET
- Strong knowledge of OOPS concepts
- Followed SOLID Principles, Dependency Injection using Interfaces to avoid Tight Coupling of classes
- Used ADO.Net objects such as Dataset, Datatable, Data Adapter, Data Reader to access data from Database
- Involved in implementing Function and Constructors Overloading, Delegates and Interfaces according to meet the company standards
- Handson experience on developing Console applications
- Implemented automated schedulers to execute applications to fetch the data from client API's

MS SQL Server

- 8 year's into Database Design, Development & Support in Production and development
- Proficient in Relational Database Management Systems (RDBMS)
- Expertise in Transact-SQL (DDL, DML) and in Design and Normalization of the database tables
- Experience implementing business logic using Indexes, Views and Stored procedures, CTEs, clauses, Functions
- Extensively used Joins, indexes and sub-Queries to simplify complex queries involving multiple tables and optimized the procedures to be used in production

ACCOMPLISHMENTS

- STAR Business Award from Accenture Leadership team for Software Development and Maintenance
- Best Macro Developer award by Accenture

EDUCATION

SSC June 1999 – March 2000

HSC June 2003 – February 2004

B.Sc [Information Technology] June 2004 – March 2007

CERTIFICATIONS

NIIT Certified professional for C#, ADO.NET, ASP.NET
